EXPERIENCE

HUSL Digital, Remote — *Senior Web Developer*

OCT 2020 - DEC 2025

Responsible for leading full enterprise-scale website builds based on in-house or outsourced designs and site architectures. This includes initializing repositories, staging sites, and coordinating live launches.

Contributed to and maintained our in-house flexible WordPress starter theme, including the addition of a graphical theme customizer for ease of use from a client perspective.

Met daily with the full team to discuss priorities and tasks. Collaborated regularly with Digital Marketing and Design teams.

AirTank, Peterborough, NH — *Front-End Software Developer*

AUG 2019 - OCT 2020

Assist in extending and maintaining the company's bespoke e-commerce software. Also responsible for routine client tasks such as website and application maintenance and implementing new feature requests.

Tasked with assisting in digital marketing efforts, such as setting up A/B tests and tracking scripts.

Subtext*, Portland, OR — *Senior Web Developer*

JULY 2017 - AUG 2019

Work closely with designers and account managers to translate creative concepts into high-performing, scalable web experiences within a fast-paced digital agency.

Responsible for leading full website builds from the ground up based on custom, in-house designs. This includes initializing repositories, staging sites, and coordinating live launches. Most websites were WordPress-based, utilizing a flexible starter theme that I also helped develop as part of an agency-wide effort to streamline the build process.
